## INDIANAPOLIS NATIONAL

Designated United States Depository. Corner Room, Odd-Fellows' Hall.

TFFC P. HAUGHEY, Pres't. E. E. REXFORD, Cash

The Deposits Continue to Accumulate

and the Supply Exceeds the Demand.

THE MONEY IN THE BANKS

Wheat Was Easier Yesterday, and Corn and Oats Were Very Quiet and Dull, with Al-

most Entire Absence of Speculation.

MONEY AND STOCKS,

The Usual Increase in Clearings-A Steady Business. Bankers continue to chronicle increasing

deposits, with no increase in the demand for money by borrowers. The clearings yesterday amounted to \$889,336.06; balances, \$55,760.59. On the corresponding date last year the clearings were \$651,521.64; balances,

NEW YORK QUOTATIONS. At New York yesterday money on call was easy at 14 to 2 per cent., closing offered at 2 per cent.

Frime mercantile paper, 31/2 @51/2 per cent. Sterling exchange was quiet but firm at \$4.84% for sixty-day bills and \$4.86% for

demand. The total sales of stocks were 349,723 shares, including the following: Atchison, 20,370; Chicago Gas, 20,056; Delaware, Lackawanna & Western, 7.250; Erie, 6,120; Hocking Valley, 4,940; Louisville & Nashville, 17,550; Missouri Pacific, 4,300; Northwestern, 4,320; Northern Pacific preferred, 8,058: New England, 10,927; St. Paul, 21,900; St. Paul & Omaha, 4,218; Western Union,

37,902; Union Pacific, 9,229. The falling off in the exports of grain is having considerable influence in the stock market, and indicates that there will be a falling off in the earnings of some railroads during January and February. The feeling of confidence that the exports will soon again become large continues, and that there will be a corresponding improvement in the prices of railroad securities is not to be doubted. The market was feverish and very much mixed all day, and the good buying of Western Union, Manhattan, Wheeling & Lake Erie preferred and Lake Shore in the forenoon was more than offset by the heavy selling in the industrials and Atchison, Union Pacific and Louisville & Nashville later in the day, although the spurt in the coalers bad a good effect for some time. There seems to be a strong impression that there will be an increase in the

dividend on Western Union when the next one is declared, and the strength of the stock is very pronounced, aided by the impression that the Gould interest is now ranged on the bull side. The depressing influence, however, came from Chicago, and was exerted most vigorously in the industrial stocks, with which that center is identified, but the grangers came in for their share of the losses in the atternoon drive, which brought the prices of many stocks down to a lower level than they have been in some time. Distillers were, of course, the most prominent, and while well held for some time after the opening decline, they gave way with a rush in the afternoon, accompanied by Chicago Gas and the Cordage stocks, whose high prices invited an attack. The extreme loss in the latter was 312 per cent., while the others were not far behind. Among the railroad list Louisville & Nashville continued to yield right from the opening. while New England, after a weak spell in the forenoon, was held quite firm against the weakness of the rest of the market during the remainder of the day. Burlington was a feature of the late drive, but its early improvement prevented any material loss for the day. The rest of the market, after a steady opening, developed considerable strength, but the advances were only fractional and the de-

mand was at no time urgent, so that with the pressure brought to bear by the bears prices yielded slowly all along the The concessions were in no case material outside of the shares mentioned. and a slight rally occurred in the last hour. The market closed heavy to weak, however, at or near the lowest prices. The Cordage stocks were specially weak in this last drive, and the common lost 31/2 per cent. Other material declines were: Distillers, 23; Chicago Gas, 2; New England, 15; Louisville & Nashville, 14; Union Pacific, 1 per cent. Hocking Valley was remarkable for its strength in the afterpoon, and it scored a net advance of 1 per cent. but the other low-price shares were in no way remarkable during the day. Railroad bonds were again more aut-

of the speculative issues, and while the majority of the list showed a firm temper, the advances were few in number, and some important declines were established. Atchison incomes contributed \$330,000, and Union Pacific \$199,000 to the day's total of \$3,057,000. lows Central firsts lost 1, at 92, and Edison Electric 1, at 1011/2. Long Island fives rose 1, to 94; Kansas City & Pacific firsts, 1, to 76, Wabash firsts, 14, to 10534.

Government bonds were dull and firm.

quotations were: 

Bar Silver-At New York, 90%c per ounce; at London, 41 9-16d.

## GRAIN AND PRODUCE.

The Usual Inspections-The Speculative Market Takes a Nap.

On 'Change yesterday wheat was easier, corn quiet, oats dull. There were inspected in ten cars of wheat, nine of corn and three of hay. The speculative market was very drowsy, little or nothing doing. Prices yesterday ruled as follows:

Wheat-No. 2 red, 89c; No. 3 red, 8614c; rejected, 75@88c; unmerchantable, 65@75c; wagon wheat, 91c. Corn (all new)-No. 1 white, 4012c; No. 2 white, 40c; white mixed, 39c; No. 3 white,

394c; No. 2 yellow, 384c; No. 3 yellow, 384c; No. 2 mixed, 384c; No. 3 mixed, 384c; ear, Oats-No. 2 white, 33c; No. 3 white, 314c; No. 2 mixed, 31 4c; rejected, 29c.

Hay-Timothy, choice, \$12; No. 1, \$11.50; No. 2, \$9; No. 1 prairie, \$8; No. 2, \$6.50; mixed hay, \$7.50; clover, mixed, \$8. Bran, \$14 per ton. POULTRY AND OTHER PRODUCE.

Eggs are higher and scarce, but the cackle of the early spring lay is at hand, and a decline is looked for. Poultry-Hens, 740 P lb; young chickens, 740 P lb; turkeys, fat, choice hens, 100 P lb. and Se for fancy young toms; ducks, 7c 1

By geese, \$6 for choice.

Noyes, minors of Thomas A. Goyette, Susan E. Adleman, Elvira Clifford, Martha A. Hill, Ann O. Tallet, Elizabeth Pritchett (mother), Sarah A. Richardson. Mexican

widow-Sarah E. Tennery. Effect of the Gulf Stream.

John Elliott Pillsbury, in February Century, The question is often asked, To what extent does the gulf stream modify the climate of the United States? To its supposed erratic movements is laid the blame of every abnormal season. There is every evidence that the gulf stream is governed absolutely by law in all its changes. The course through the ocean is without doubt fixed. Its fluctuations are by days, by months, by seasons, or by years, and they do not vary materially one from the other. Its temperature changes, depending upon the relative heat of the tropical and polar seasons, and upon the strength of the producing trade-winds. The warm water may be driven toward the shore by the waves caused by a favorable wind, but the current remains in its proper place. The warm water gives off a certain amount of heat to the air above it, and if this air is moved to the land we feel the heat. The presence of the warm water on the coast of Europe would in no way modify the climate if the prevailing winds were easterly instead of westerly. If the prevailing winds in New England in winter were southeast instead of northwest, the climate would be equal to that of the Azores islands, mild and balmy. For the cause of abnormal seasons we may look to meteorology. The current is in its place ready to give off the heat and moisture to the air whenever the demand is made upon it. but by the erratic movements of the air this heat and moisture may be delivered at unexpected times and seasons, and thus give rise to the erroneous belief that the gulf stream itself has gone

A Grateful Old Man.

Bob Burdette, in New York Herald. Mabel Waltzes has been waiting in the parlor for her lover's return for what seemed to her an age. Her heart turned to blood stone as she thought of him, young, slender, but brave to rashness and recklessness, clos-eted alone with her stern father in the grim old library. The door opened at last and he stood before her, unscathed, a flush on his cheeks and an expression in his eye.

"Did you see papa, Richard?" she asked
with trembling eagerness. He held her in
his arms for a moment without speaking.

"Yes, dearest," he said at length.

"And what did he say, Richard? Tell me

what he said! He refused you! Oh, your eyes tell me! He refused you; he will not give me to you? But I will be-I am yours -I do not fear his harshness-we will But Richard looked down into her plending face, and shook his head slowly, like a man in a dream. "Tell me, then, for I cannot wait! Was

he brutal and cruel to you? what did he do? What did he sav?" Richard Nobeard drew a long, deep breath and again looked down at the face turned up to meet his troubled glance. He sighed and whispered slowly: "He only said 'thank heaven'! and went on reading."

QUITE A BEARISH OUTLOOK

Foreign Situation Begins to Tell Severely on the Chicago Wheat Market.

Little Encouragement for Buyers Until Export Demands Improve, or Unless the Growing Crop Should Suffer by the Weather.

TRADING AT CHICAGO. Corn, Contrary to Wheat, Is Wearing a

Builish Aspect.

CHICAGO, Feb. 8 .- Yesterday's weakness in wheat was continued to-day, and values struck the lowest point so far recorded on the last crop. The chief dopressing cause for some time has been the discouraging situation abroad. Stocks in Great Britain and on the continent have been large, and the tendency in prices has been downward for the past two weeks. The Chilian war scare helped to maintain prices on this side for a time, but now that trouble has been averted and conservative traders here do not look for any marked improvement in values until the export demand and the European prices improve, or unless the growing winter wheat crop suffers material damage. The trading in this market for some days has been largely of a scalping character. Pardridge has been conspicuous as the leader in this line, selling on the advances and covering on the recessions at 'sc or '4c profit. His trans-actions in this way and in the sale of options have been enormous, and the trade generally credit him with having made immense profits, some dealers putting them as high as \$1,500,000; but this, of course, is probably greatly exaggerated. The market to-day was rather slow and decidedly lower. There was little in the way of news that was encouraging to holders and much that was the reverse. Cables were lower and weak; domestic markets were heavy; receipts in the Northwest were liberal, and the export clearances moderate. These weak features, with the fact that the depression of yesterday brought in large selling orders from outside points, caused the lower opening. For a time the offerings were generous, Schwartz-Dupee, Logan, Milmine-Bodman, McDonald and others selling very freely. Liquidation was quite free on the down turn, and as there was little demand, concessions had to be made to find a market. Pardridge was again an aggressive seller, and hammered the market ferociously. On the break some of the early sellers began to cover, and cables coming steadier, with a decrease of over 1,000,000 bushels in the available supply reported by Bradstreets', there was a rally which carried prices almost to the closing price of yesterday. The strength was only momen-tary, however, as another avalanche of offers quickly demoralized the market, and the downward movement was resumed. and continued without material reaction till the lowest price of the day was touched. Confidence seemed to be wholly gone, and this, with exhausted margins and the vicious courage displayed by the bears, was disastrous to holders. At the bottom Pardridge and the other shorts began to cover and take their profits liberally, causing a rally to medium figures, in spite of steady at the reaction. May opened at 884 @884 c. against 89 c at the close yesterday. It settled around bottom figures for a time, then advanced to 89c, broke to 88c, rallied, and closed at 88½c. Corn showed decided strength at the start, and was going up steadily until the weakness in wheat became pronounced.

when it came to a stand-still, then receded in sympathy and closed at bottom figures, with prices from unchanged to a shade lower in comparison with yesterday. The situation in corn is generally regarded as having a good element of strength. The receipts are moderate and the grading unprecedentedly poor, not a single car having proved of contract quality in the entire receipts of the past three days. Stocks are low everywhere, and decreasing, and the exports are generous. Shorts were a little uneasy and disposed to cover. The near futures were strong, as well as May. The latter opened unchanged at 41 sc, advanced to 41 4c, eased off to and closed at the open-

ing price. Oats were firm early in sympathy with corn, but weakened later and closed at yesterday's last prices to a shade higher. Hog products were lower, although the receipts of hogs were smaller than expected and prices at the yards higher. The weakness in the other speculative pits had tendency to pull down provisions, but the chief cause of the weakness was the receipts of the large outside orders to sell short ribs. Prices declined until near the close, when there was a slight reaction. Pork shows a loss of 124c, ribs are unchanged to .10c lower and lard 18 .024 @ .05c

Estimated receipts for to-morrow are Wheat, 160 cars; corn, 175 cars; oats 120 cars; hogs. 38,000 head. The leading futures

ley, 1,000 bu. MINNEAPOLIS, Feb. 3.-Wheat is on the broad road that leads to low prices and just at present it is bent on carrying consternation to the hearts of the bulls who have looked thirty days for the coming of the predicted January boom. May wheat opened at 81%c, which was %c under last night's closing price. There was an immediate decline under the offerings by longs. The price went to 83% c, the first time below 84c this year, and then under the temporary influence of Bradstreets's statement showing a decrease in the available stocks East and West of 1,000,000 bushels there was a little firmness. There was recovery to 84%c, the highest point of the session, and then there was another plunge and 84c was the mark for some time. Near the close there was 4c rally and May closed at 844c; February at 814c. Cash wheat was a little slow, and yet a good deal was sold. Fifteen cars of No. 1 Northern sold for 82c and a little sold under that. There is some very poor no grade being offered and it sells for all sorts of prices. Coarse grains are slow. Receipts of wheat here were 329 cars and at Dulath and Superior 158. Close: February, closed at to-day. 81 2c; May opened at 84%c; highest, 84%c; lowest, 83%c; closing at 84%c. On track: No. 1 hard, 83c; No. 1 Northern, 82c; No. 2 Northern, 76@78c.

-THE

DAILY, SUNDAY AND WEEKLY.

The Journal is first of all a newspaper. Its primary object is to publish the news, and to secure this it spares no pains or expense. Besides the service of two great news agencies, which cover foreign countries as well as the entire United States, it has a corps of Special Correspondents, who give attention to those events and occurrences that are likely to be of particular interest to the Indiana public. Its Washington bureau was established for the purpose of looking after matters in which the State and its people are concerned, and is under the management of an Indiana man well acquainted with the local business and political issues. It has a correspondent in every town of importance in the State, and is constantly increase ing its facilities for obtaining information from every quarter. Its staff of city reporters is large, and its local departments are unexcelled. As a newspaper it is far better equipped than any other in the State, and welcomes comparison with its contemporaries in any and all of its departments. With all it endeavors to be accurate and trustworthy, printing the news, whatever it may be, without personal or partisans

But while the Journal is non-partisan as to news, it is a Republican paper, and sets forth Republican principles. It is important that the people shall read the truth about these principles, and it was with the object of putting everybody in the way of doing so that the price of the

- Was reduced to -

## A WEEK

No other method of securing a Republican victory at the polls is so certain as the circulation of Republican papers among voters. Since the reduction in the price thousands of subscriptions have poured in from all parts of the State, showing that a need was supplied. In order to have the proper influence and effect upon voters seeking for trustworthy information the Journal should go into their hands at once, and not next spring or summer. Clubs are being formed and agencies established wherever daily mails reach, and as rapidly as traveling agents can visit the places. but Republicans in each and every locality cannot do their party greater service than to interest themselves in circulating the Journal.

Is a paper that gives more attention to miscellaneous literature than the other editions, and contains in its sixteen, and

### often twenty, pages a variety of CHOICE READING MATTER

That satisfies the most exacting taste. The same reasons that call for the immediate extension of the the daily circulation apply to the weekly. This is carefully edited, with a special view to the wants of Indiana readers, both in its general and political news. Its subscription price, \$1, with reduction to clubs, places it within the reach of all and no campaign contribution can be so effective as when spent in furnishing this paper to readers who need Republ
